

EXAM READER 3

**READ CONFIDENTLY.
EXCEL IN EXAMS.**

Text-to-speech, perfected. An offline reading pen featuring a vibrant colour touchscreen and crystal-clear audio to make independent reading effortless.

Empower independent learning with the C-Pen Exam Reader 3.

Building on the success of its predecessors, the C-Pen Exam Reader 3 is a portable, completely offline assistive text reader, with a colour touchscreen, designed for printed text. Featuring natural, human-like voice synthesis, the entire text-to-speech engine operates directly on the device, requiring no computer, Wi-Fi, or internet connection.

This allows students with reading differences like dyslexia to independently tackle exams and coursework with confidence. By removing the need for human readers or isolated exam spaces, the Exam Reader 3 significantly reduces school administrative overhead while maximizing accessibility budgets.

Pre-approved by major testing boards, including the UK's Joint Council for Qualifications (JCQ), it delivers an immediate, compliant accessibility solution.
